

Risk Analysis

Risk Analysis Workspace Overview

This view combines scope context, risk indicators, host-by-host scoring, and guided commands.

Main Parts Explained

1 Navigation Rail

- Shows the audit lifecycle with the current step highlighted.
- Supports quick movement between related audit stages.

2 KPI Indicators

- Highlights analyzed assets, critical impact, critical or high risk, and medium risk counts.
- Helps users gauge overall exposure before reviewing the host-by-host analysis.

3 Risk Analysis Table

- Shows CVEs and user-behavior findings with CVSS, CIA, likelihood, and final risk values.
- Uses ML-assisted behavior context to support host prioritization and risk scoring.

4 Assistant Panel

- Shows commands for UAB collection, analysis, details, reset, and submission.
- Guides the user through the page workflow in one screen.

This page is the operational source for host-by-host risk scoring, CVE prioritization, and behavior-informed analysis.
