

Risk Evaluation & Treatment

Risk Evaluation Workspace Overview

This view combines scope context, evaluation metrics, host-by-host decisions, and guided commands.

The screenshot displays the 'Risk Evaluation & Treatment' workspace. On the left is a vertical navigation rail (1) with steps: 1. Scope & Context, 2. Asset Inventory & CIA, 3. Threats & Vulnerabilities, 4. Existing Controls & Posture, 5. Risk Analysis, 6. Risk Evaluation/Treatment (highlighted), 7. Annex A & SoA, 8. Action Plan / Implementation, 9. Monitoring & Improvement, and 10. Final Deliverables. At the bottom of the rail are buttons for 'AI/ML Dashboard' and 'Dashboard'. The main area is titled 'Risk Evaluation & Treatment' and shows an 'Audit Scope' of '2025 ISO 27001 Scope Statement - Healthcare Provider' with '(10 assets)' and a 'Completed' status. Below this is a 'Scope & Context' section for 'Section 2 (Organizational Boundaries)' listing departments. A summary bar (2) shows 'Analyzed Assets: 10', 'Critical Impact: 7', 'High Risk: 5', and 'Medium Risk: 11'. The central 'Risk Evaluation & Treatment Table' (3) lists findings by host, including CVEs and their risk levels, with evaluation and treatment dropdowns. On the right is an 'Assistant' panel (4) in 'Command mode' showing available commands like /submit, /exit, /commands, and /help, along with a 'Send' button.

Main Parts Explained

1 Navigation Rail

- Shows the audit lifecycle with the current step highlighted.
- Supports quick movement between related audit stages.

2 KPI Indicators

- Highlights analyzed assets, critical impact, high risk, and medium risk counts.
- Helps users confirm the overall treatment workload before reviewing each host.

3 Evaluation & Treatment Table

- Shows each host vulnerability with the risk level, evaluation choice, and treatment action.
- Supports decisions such as Treat, Monitor, Accept, and Mitigate for each finding.

4 Assistant Panel

- Shows commands for submission, exit, command help, and page guidance.
- Keeps the treatment workflow focused in one screen.

This page is the operational source for risk disposition, treatment planning, and decision tracking.
